

**ANNOUNCEMENT**

South Central Regional Construction Code Council Inspectors meet every Monday morning to discuss code issues and interpretations with the Chief Building Inspector and the Building Official. We would like to invite anyone from the public to participate in these meetings. This is yet another forum to voice concerns or to simply try to gain a better understanding of specific code requirements. All contractors, third party providers, parish officials, and individuals are invited to attend. The meetings are at 8:00 am every Monday morning. In the event of a Monday holiday, the meeting will be held the first working day after the holiday.

We invite your participation and hope to see you at some of our meetings.

Michael Wich  
Building Official
